DETAILED ACTION

Allowable Subject Matter

Claims 1, 3 – 15, and 17 – 21 are allowed.

The following is an examiner's statement of reasons for allowance: The prior art does not disclose the use of a content distribution system (or method) wherein both the trial-use content (with limited reproduction function) and the normal use content contain the same content data but with different management data (i.e., first and second management information). The Examiner notes that typically, the trial use content and the normal use content are different (e.g., the trial use content will be only part of a song). In other words, the trial use content data of the Applicant's invention contains the entire content to be distributed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
